

Unitron Blu

Unitron Blu hearing aids come with traditional zinc air batteries and with the **new lithium-ion rechargeable batteries**. They come in the receiver in the ear style.

Made for All Phones (Android & iPhone) and other Bluetooth enabled devices to stream any kind of audio directly for hands free phone calls, video calls, e-books, podcasts and any media streaming to both ears.

The new features of the Unitron Blu include:

- the new PRISM Chip
- Enhanced Speech Performance & Soft Speech Lift
- Auto Focus 360, for speech understanding from all directions
- Spatial Awareness, so you can interpret when sound is coming from
- Dynamic Noise Reduction, improves the signal to noise ratio in noisy environments
- Double Tap that allows the devices to answer the phone with a double tap to the device

Unitron Blu comes in 4 levels outlined below. The higher-level devices have the features of all of the devices listed below them.

9 – Premium Level Hearing Devices

Premium performance in 7 environments and the most sophisticated features that let you focus on speech and know where it's coming from in crowds and background noise (where you spend lots of your time). Plus, enjoy improved awareness of where sounds come from and the ability to hear in quiet as well as delightful music, automatically.

7 – Advanced Performance Hearing Devices

Advanced performance in 6 environments with a great feature that will help you focus on speech coming from the front and sides in challenging situations, improved awareness of where sounds come from and the ability to hear in quiet situations, plus an automatic music program.

5 – Standard Performance Hearing Devices

Standard performance in 4 environments that includes a feature to help you to know where sounds are coming from and the ability to hear in quiet environments.

3 – Essential Performance Hearing Devices

The basics in 2 environments. Limited ability to adjust automatically to accommodate multiple listening environments.
