

## New Widex Moment

Then new Widex Moment hearing aids come with the option of lithium ion rechargeable batteries and the PureSound Program. This program offers the fastest sound processing in the industry and eradicates delay artefacts. PureSound provides more pure and natural sound. Widex Moment comes in 4 levels outlined below. The higher-level devices have the features of all of the devices listed below them.

### **Moment 440** - Premium Level Hearing Devices

Top of the range device, for ultimate listening experience in complex and dynamic situations. Automatically analyses your environment into eleven specific listening situations and optimises the sound. Industry leading wind noise reduction system, ideal for outdoor use. Proven speech enhancement technology for real time speech understanding. Personalised impact program for the best speech prioritisation.

Cost for a pair of rechargeable Widex Moment 440 devices is **\$7,490**

### **Moment 330** - Advanced Level Hearing Devices

Best ability to understand speech anywhere, anytime. Automatically analyses your environment into seven specific listening situations and optimises the sound. Proven speech enhancement to focus on the dominant voice in the crowd. A natural sound experience that mimics the characteristics of your ear shape.

Cost for a pair of rechargeable Widex Moment 330 devices is **\$6,490**

### **Moment 220** - Mid Level Hearing Devices

Comfortable, easy listening for active lifestyles. Automatically analyses your environment into four specific listening situations and optimises the sound. Advanced microphone technology to improve the balance between speech and noise. Manages unexpected sharp or unpleasant sounds instantaneously. Incorporates SoundSense technology so that the hearing aid remembers the volume you prefer in a variety of listening situations.

Cost for a pair of rechargeable Widex Moment 220 devices is **\$4,490**

### **Moment 110** - Standard Level Hearing Devices

Affordable performance. Automatically analyses your environment into three specific listening situations and optimises the sound. Optimises sound quality without compromising speech understanding. Boosts important speech sounds and reduces unwanted background noises. Helps you hear soft speech clearly whilst removing unwanted soft environmental sounds.

Cost for a pair of rechargeable Widex Moment 110 devices is **\$3,500**

### **Evoke 50 RIC** - Basic Level Hearing Devices with a receiver in the canal

Automatically analyses your environment into one specific listening situation. Provides listening comfort in quiet and noisy situations. Dedicated programs for phone calls and music appreciation.

Cost for a pair of rechargeable Widex Evoke 50 RIC devices is **\$2,500**

Note: the non-rechargeable devices are **\$500 less** than the price quoted per pair.
